

NURSE CALLING SYSTEM CATALOG

ADVANTAGES OF A NURSE CALL SYSTEM

1. Instant communication

With a nurse call system, relevant staff can be contacted immediately. This makes for convenience as well.

2. Less burden on the other staff and communication lines

This reduces the workload of the switchboard staff that is responsible for the communications between nurses, doctors, and patients. It also relieves the telephone lines from congestions.

3. Adaptability

This form of technology is highly versatile and can be adaptable to most situations within a hospital or care home facility .The system can also be installed at healthcare institutions that didn't make use of it before.

4. Cost effective

This type of technology allows nurses to monitor different zones from a centralized location and this can help reduce costs in terms of staffing.

5. Improved communication

There is an increase in the quality of communication when Nurse Call systems get implemented.

6. More information available to nurses at a glance

An alert displays room and bed number.

7. Higher patient satisfaction

When patients get adequate, quick and efficient care, it makes them comfortable, more relaxed, happy and in turn, it increases their recovery rate. Nurse Call system makes the above possible, Nurse Call system makes the work environment more comfortable for doctors, nurses, and staff.

8. Fewer disturbances

Nurse Call systems also reduce the amount of disturbance the patient can potentially cause. The naturally discrete nature of the process allows minimal distractions in the hospital.

9. Simplicity in use

Nurse Call systems are fast, efficient and easy to use. The simplicity of its interface requires little technical knowhow to begin its operation. They are no wire hanging out in the open and nurse could have the option of wearing a device to make the alerts even more immediate.

10. Saves lives

ITEM NUMBER	ITEM	IMAGE	DESCRIPTION	PRICE
1	LED DISPLAY		<ol style="list-style-type: none"> 1. High strength ABS plastic shell 2. Uses digital coding technology 3. Desktop or wall mounted 4. It shows 3-digit number 001-999 or A01-Z99, works with 999 buttons max 5. It can show different service type by dot or last letter 6. It can show 3 groups of number at the same time 7 It can save 63 calling info. 8 Touch screen 9 Red number and service type in English 10 Dimension: 29*15.5*4 	14,000
2	LED DISPLAY		<ol style="list-style-type: none"> 1. Touch screen with high strength ABS shell 2. Desktop or wall mounted 3. Shows 3 group number and 4-digit number. 4. Show different service type with red dot 5. It can work with 999 call buttons max 6. It can save 63 calling info 7. Can show current time when on stand by 8. Dimension: 195*135*30mm 	9,000
3	LED DISPLAY		<ol style="list-style-type: none"> 1. High strength aluminum alloy shell 2. Uses digital coding technology 3. Show number from 1-50, can show 50 numbers at the same time. 4. It can work with 50 1-key or 2-key button in max 5. It can save 20 calling info 6. It has a battery inside in case of a power outage 7. Dimension: 220*120*40mm 	15,000

4	LED DISPLAY		<ol style="list-style-type: none"> 1. High strength ABS plastic shell 2. Uses digital coding technology 3. Desktop or wall mounted 4. It shows 4-digit number; works with 999 buttons max 5. It can show different service type by dot 6. It can show 3 groups of numbers at the same time 7. It can save 63 calling info 8. Key Operation 9. Read number and service type in English 10. It can be connected to a computer to manage all calling info. 11 Dimension: 29*15.5*4cm 	18,000
5	WRIST WATCH		<ol style="list-style-type: none"> 1. It can work with 500 multi-key buttons max 2. It can show 3 calling numbers at one time 3. It shows 4-digit number from 0001-9999 and first letter can be A-Z 4. It can indicate different service type via words or letter. 5. It can record an incoming call and count the call times of each number 6. It can track the history calls by up and down 7. It shows current time when stand-by 8. 3 alert prompts: sound prompt and vibration or both 9. Rechargeable battery 10.Dimension:50*51*16mm 11.Color: Black 	7,000
6	NECK WATCH		<ol style="list-style-type: none"> 1. It can work with 500 multi-key buttons max 2. It can show 3 calling numbers at one time 3. It shows 4-digit number from 0001-9999 and first letter can be A-Z 4. It can indicate different service type via words or letter. 5. It can record an incoming call and count the call times of each number 6. It can track the history calls by up and down 	9,000

			<p>7. It shows current time when on stand-by</p> <p>8. 3 alert prompts: sound prompt and vibration or both</p> <p>9. Rechargeable battery</p> <p>10.Dimension:70*42*16mm</p> <p>11.Color: Black</p>	
7	KEY PAD TRANSMITTER		<p>1. High strength ABS material cover</p> <p>2. Uses digital coding technology</p> <p>3. It can call 999 pagers max</p> <p>4. It has 4-digit number(first digit shows zone and last three-digit number show current number)</p> <p>5. Has Clear, Next, Reset function</p> <p>Technical parameters: Signal Range: >200m in open area Working voltage: DC7.5-12V Working current: <20mA Dimension:160*118*60mm</p>	10,000
8	KEY PAD TRANSMITTER		<p>1. High strength ABS material cover</p> <p>2. Uses digital coding technology</p> <p>3. It can call 999 pagers max</p> <p>4. It has 4-digit number(first digit shows zone and last three-digit number show current number)</p> <p>5.
